

## ***Defaulted Matches***

*We would like to remind all coaches, players and officials that as of January 1, 2005 all matches reported as defaults will be counted as losses in the Canadian Rating System as per a resolution by the Board of Directors:*

*"To have a defaulted match be officially recorded in the Canadian Ratings as a defeat for the defaulting player."*

*After a lengthy discussion all provisions for injuries or other reasons were removed from this resolution. This means that all defaulted matches are counted as losses for the defaulting player - however, the winners of a default match do not get rating points for their default wins.*
