

TABLE TENNIS CANADA RACKET TESTING PROGRAM

As of January 1, 2008 for Junior events (U-18), and as of September 1, 2008 for all events in Canada, Table Tennis Canada will implement a new racket testing program and protocol, using the Enez* instruments to ensure that all rackets used by players are free of volatile compounds except water.

The current racket-testing programme will continue until the new testing using Enez will be introduced.
